Summary

Results-driven design professional currently pursuing a Bachelor's degree in Information Technology. Proficient in graphic design, video editing, UI/UX design, branding, wireframing, prototyping, user research, and visual storytelling. Skilled in Adobe Photoshop, Illustrator, Premiere Pro, Figma, Canva, and modern design principles. Strong communication, collaboration, and project management abilities with a passion for creating impactful digital experiences and innovative design solutions.

Experience

Cultural Secretary & Technical Lead

2024

- Directed cultural and technical student events, ensuring smooth execution of both technical and nontechnical activities.
- Introduced technology-driven solutions to improve event management and coordination.
- Strengthened leadership, problem-solving, and collaboration skills through close teamwork with diverse groups.

Cultural Secretary & Management Team Member

2025

- Supported planning and execution of academic and cultural events as part of the student management team.
- Streamlined event workflows, increasing efficiency and participation.

Acted as a liaison between students, faculty, and administration to enhance communication and event success.

Freelance Graphic Designer

2026

- MBR Events & Catering | March 2026 – April 2026 (2 Months)
- Designed promotional posters, banners, and social media creatives for catering and event services.
- Created visually appealing marketing materials for ice cream catering events, weddings, and special occasions.
- Developed branding-focused designs to improve customer engagement and online presence.
- Collaborated with clients to understand requirements and deliver creative solutions within deadlines.

Projects

Money Matters (Android Studio)

(Naan Muthalvan Project), 2025

Developed a personal finance mobile app in Android Studio, enabling budget tracking, expense categorization, and savings management.

Secure File Sharing System Using Deceptive Encryption

(Final year Project), 2026

Designed and developed a secure file-sharing platform that employs deceptive encryption to safeguard confidential files. Implemented user authentication, secure file storage, and encrypted data transmission to prevent unauthorized access and improve data security.
